

Technician position

Location: UMR1011, Institut Pasteur de Lille, France

We are looking for a motivated and skilled technician to join our research team at UMR1011 - Institut Pasteur de Lille. Our research focuses on unraveling the metabolic and signaling pathways that drive endothelial cell dysfunction in cardiovascular diseases. To know more visit: <https://u1011.univ-lille.fr/en/>

Your Role:

As a technician, you will support ongoing and new research projects by:

- Performing and optimizing molecular biology, cell culture, and microscopy techniques
- Managing breeding and genotyping of transgenic mice
- Assisting in in vivo experiments
- Managing lab stocks, ordering, and basic equipment maintenance
- Contributing to experimental design and data analysis

Your Profile:

- Degree in Biological Sciences, Biotechnology, or related field (Bac+2 to Bac+3)
- Solid experience in animal studies, cell culture, qPCR, Western blotting, immunostaining
- Previous work in an academic or clinical research setting
- Proactive, organized, and collaborative mindset
- Excellent communication skills in spoken and written English

What We Offer:

- A dynamic and supportive scientific environment
- Access to state-of-the-art facilities
- Opportunities to grow your technical and scientific skills
- Involvement in projects with high translational impact

 **Location:** Institut Pasteur de Lille, France

 **Starting Date:** As soon as possible

 **Contract:** 1-year fixed-term, renewable

Interested candidates should send their CV and a brief motivation letter to: anna-rita.cantelmo@univ-lille.fr
